

Introduction

Getting Started with the VTU Internship Portal

Step 1: Register an Account

1. Open <http://vtu.internyet.in/>.
2. Click Register.
3. Fill in:
 - Name
 - Email (personal email works)
4. Click Send OTP.
5. Check your email, get the OTP, and verify.
6. Fill in the remaining details:
 - Phone Number
 - Password
 - Agree to terms
7. Click Register.

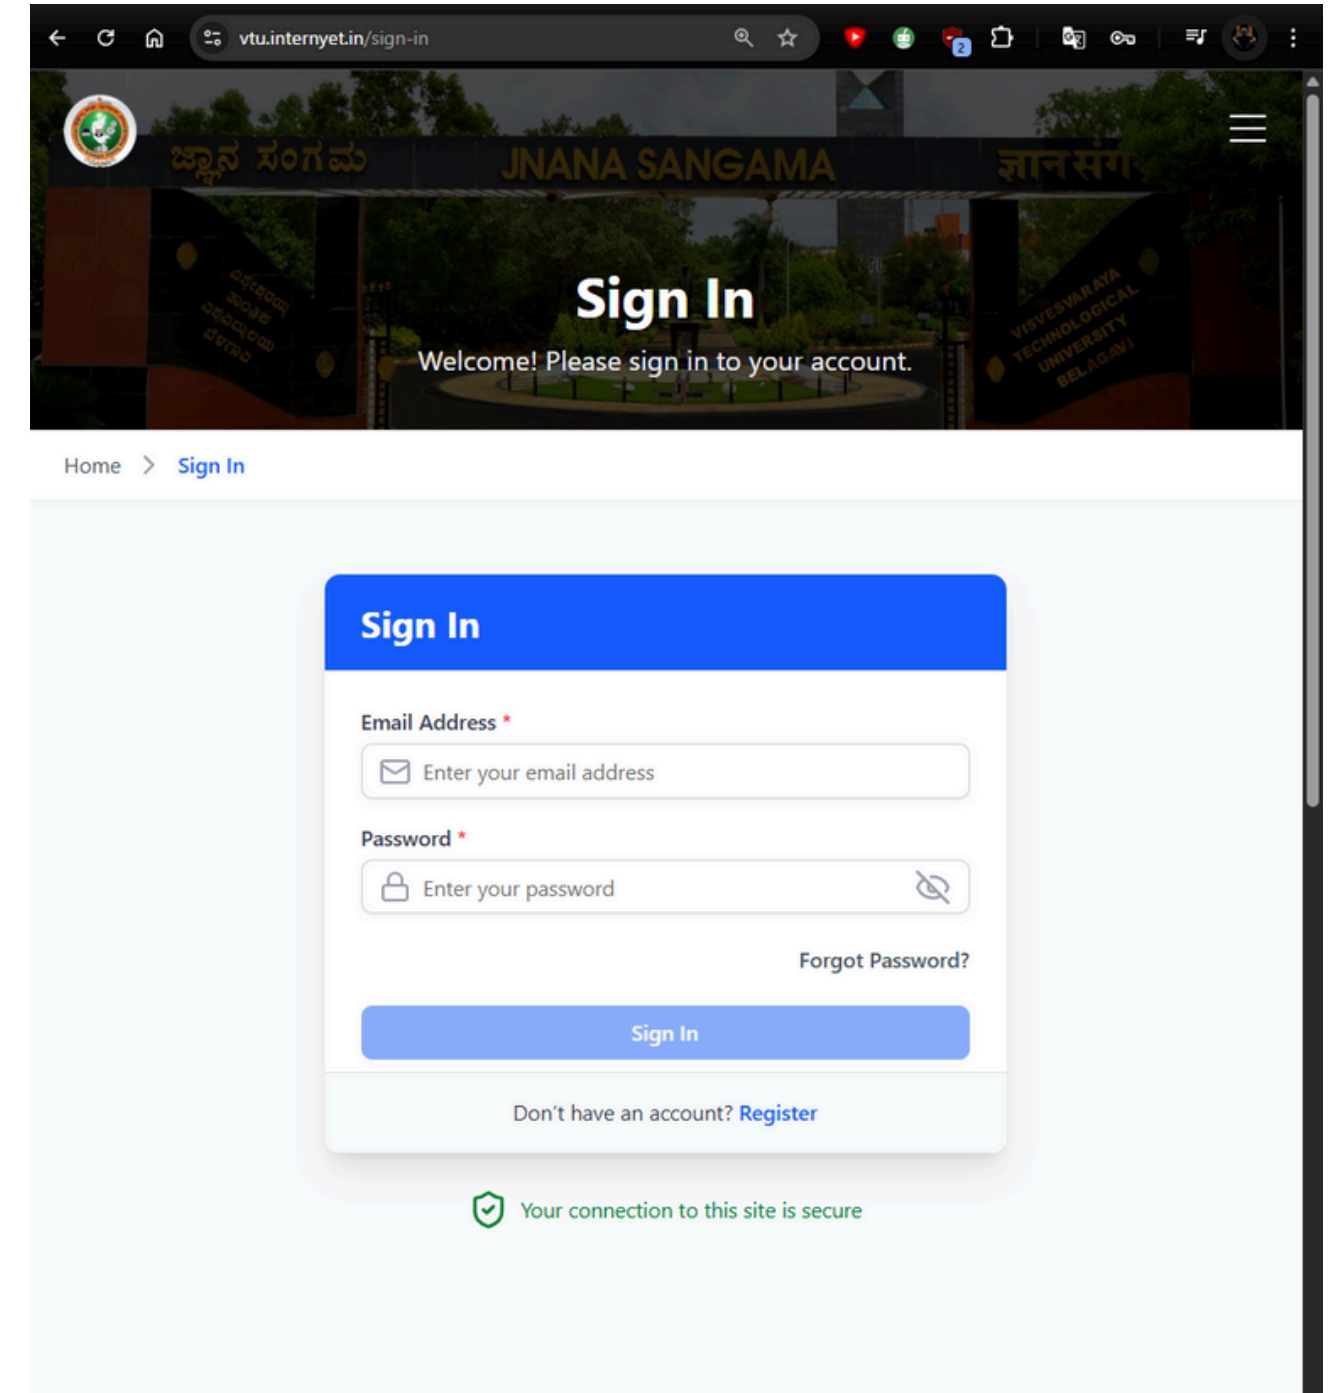

The screenshot shows a web browser window with the address bar displaying vtu.internyet.in/register. The page features a registration form titled "Register" in a blue header. The form includes the following fields and elements:

- Full Name ***: A text input field with a person icon and placeholder text "Enter your full name".
- Email Address ***: A text input field with an envelope icon and placeholder text "Enter your email address", followed by a blue "Send OTP" button.
- Phone Number ***: A text input field with a phone icon and placeholder text "+91 Enter your phone number".
- Password ***: A text input field with a lock icon and placeholder text "Enter your password", accompanied by an eye icon for toggling visibility.
- Confirm Password ***: A text input field with a lock icon and placeholder text "Enter your confirm password", also accompanied by an eye icon.
- Terms & Conditions**: A checkbox labeled "I agree to the" followed by a blue link to "Terms & Conditions".
- Register Button**: A large blue button labeled "Register".
- Verification Message**: Text below the button stating "Please verify your email to continue."
- Sign In Link**: A link at the bottom that says "Already have an account? [Sign In](#)".

Step 2: Sign In

1. On the homepage, click Sign In.
2. Enter Email Address and Password.
3. Click Sign In.

The screenshot shows the 'vtu.internyet.in/sign-in' page. The header features the VTU logo and the text 'ಜ್ಞಾನ ಸಂಗಮ JNANA SANGAMA ಜ್ಞಾನಸಂಗಮ'. Below this, a large banner displays 'Sign In' and 'Welcome! Please sign in to your account.' A breadcrumb trail shows 'Home > Sign In'. The main content area contains a 'Sign In' form with two input fields: 'Email Address' (with an envelope icon) and 'Password' (with a lock icon and a toggle for visibility). A 'Forgot Password?' link is positioned to the right of the password field. A blue 'Sign In' button is at the bottom of the form. Below the button, a link reads 'Don't have an account? Register'. At the very bottom, a green security message states 'Your connection to this site is secure'.

Step 3: Complete Your Profile

1. After signing in, click Edit Profile.
2. Fill in all profile details
 - more details = higher recruitment chances.
3. Upload your resume as PDF (<2MB).
 - Note: If it shows an error, it still might be uploaded — save profile and check under the Resume section → View.
 - If not uploaded, try again.

Step 4: Apply for Internships

1. Navigate to the Internships page.
2. Find an internship in your field of interest.
3. Click Apply Now — you'll be taken to the Apply page.
4. On the apply page, you'll see a Message to Recruiter box.

Step 5: Write a Strong ‘Message to Recruiter’

To make your message stand out, use GPT with this prompt:

“Write a concise (under 120 words) and persuasive recruiter message for a [TYPE OF JOB] role. Ask me:

- 1) My top technical skills/tools relevant to the role
- 2) My strongest soft skills
- 3) Key projects, results, or achievements
- 4) My work style/values
- 5) What excites me about this role/industry

Use my answers to create a message that clearly shows why I am a strong choice over other applicants, highlighting how my skills, achievements, and approach will benefit the company. Keep it confident, professional, and specific — no vague statements.”

How to Fill the Brackets:

[TYPE OF JOB] → Exact role you’re applying for (e.g., “Data Analyst Internship”).

When GPT asks you the 5 questions above, answer honestly and specifically.

Example Interaction with GPT

Write a concise (under 120 words) and persuasive recruiter message for a Flutter Developer role. Ask me:

- 1) My top technical skills/tools relevant to the role
- 2) My strongest soft skills
- 3) Key projects, results, or achievements
- 4) My work style/values
- 5) What excites me about this role/industry

Use my answers to create a message that clearly shows why I am a strong choice over other applicants, highlighting how my skills, achievements, and approach will benefit the company. Keep it confident, professional, and specific — no vague statements.

Great! Let's get started — please answer the following questions:

1. What are your top technical skills/tools relevant to the Flutter Developer role?
2. What are your strongest soft skills?
3. What are some key projects, results, or achievements you're proud of?
4. How would you describe your work style and core values?
5. What excites you most about this Flutter Developer role or the industry in general?

Once I have your answers, I'll craft a concise and persuasive recruiter message that highlights exactly why you're a standout candidate.

Top Technical Skills/Tools:Flutter, Dart, Firebase, REST APIs, Git, Bloc/Provider state management, SQLite/Hive, Firestore, Figma (for UI), Postman.

Strongest Soft Skills:Problem-solving, adaptability, effective communication, teamwork, continuous learning.

Key Projects & Achievements:

Developed a personal finance tracker app with Firebase Auth & Firestore.

Created a weather app using REST APIs with clean UI and MVVM architecture.

Contributed to open-source Flutter packages and UI libraries.

Reached 500+ downloads on a productivity app published on the Play Store.

Work Style & Core Values:Detail-oriented, user-focused, agile mindset. I value clean code, collaboration, and delivering functional, well-designed apps.

What Excites Me Most:The fast-paced innovation in mobile tech, the ability to build for multiple platforms with one codebase, and creating meaningful user experiences that scale.

Thanks! Based on your input, here's a concise and persuasive recruiter message tailored to highlight your strengths:

I'm a Flutter Developer skilled in Dart, Firebase, REST APIs, and state management (Bloc/Provider), with a proven track record of delivering user-focused, scalable apps. I've built apps like a finance tracker using Firebase Auth/Firestore and a weather app with REST APIs and MVVM, plus contributed to open-source UI libraries. One of my productivity apps has 500+ Play Store downloads. I bring a detail-oriented, agile mindset, strong problem-solving skills, and a passion for clean, collaborative development. I'm excited by cross-platform innovation and crafting meaningful mobile experiences. I'm confident my blend of technical depth, design focus, and product impact sets me apart from other candidates.
