

Triggers (3x3 OH Beginner)

By Bhargav Narasimhan

What is a Trigger in SpeedCubing?

A trigger is a short sequence of moves that, when repeated enough times, will revert the puzzle back to its solved state. Triggers are typically 4 moves long and are not considered algorithms as they do not create the desired change in the puzzle on their own. Instead, triggers are combined to create algorithms that can be used to solve the puzzle more efficiently.

Below are the most common triggers used in speedCubing.

1. $R\ U\ R'\ U'$
2. $R\ U'\ R'\ U'$
3. $R\ U^2\ R'$
4. $R\ U\ R'\ U\ R\ U^2\ R'$ (Sune)
5. $R\ U'\ R\ U\ R\ U\ R\ U'\ R'\ U'\ R^2$ (U-Perm)

Other Practice Triggers

1. $F\ (R\ U\ R'\ U')\ F'$
2. $(R\ U\ R'\ U')\ R'\ F\ R^2\ U'\ R'\ U'\ R\ U\ R'\ F'$ (T-Perm)
3. $R'\ U'\ R\ U$
4. $R'\ F\ R\ F'$
5. $R'\ U\ R\ U'$
6. $F\ R'\ F'\ R$
7. $R\ U'\ R'\ U$
8. $U'\ R\ U'\ R'$
9. $U'\ R\ U^2\ R'$
10. $U\ R\ U^2\ R'$

11. $R U^2 R' U'$
12. $R U R' U$
13. $R' U R U'$
14. $R' U^2 R U$
15. $R U R' F$
16. $F R U' R'$
17. $F (U R U' R') F'$
18. $R U^2 R' U' R U' R'$
19. $R' U' R U' R' U^2 R$
20. $R' U^2 R U R' U R$
21. $R U^2 R' U' (R U R' U') R U' R'$
22. $R U^2 R' U' (R U R' U') R U' R'$
23. $R U R' U R U' R' U R U^2 R'$
